## Innovative Accessories made in Europe

With our Tiro brand we decided to go down new roots. Cheap leather accessories from Far East are you will find many, but innovative accessories like ours are for the time unique.

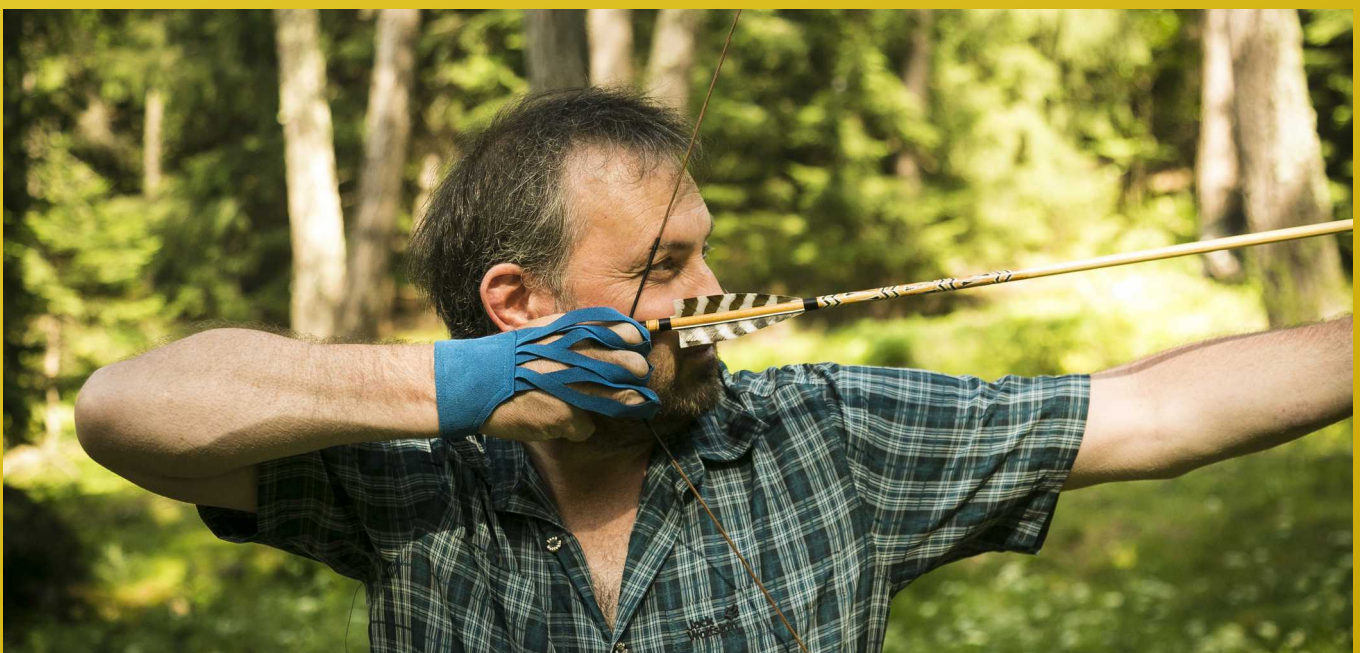

We live traditonal archery day by day and listen to waht we hear: „my armguard is so stiff, my glove gets all wrinkles after a short period, is there nothing colored available etc.“

Tiro has the answer, high level Microfiber also known as Alcantara and all handcrafted in Europe is the answer.

The advantages are clear. The material is super soft, long lasting and available in many colors.

Armguards from Tiro submit a unique feeling like a second skin, so soft and comfortable is the sensation on the arm. Our gloves are soft, comfortable, without wrinkles and result in a perfect string release. And we have a lot more....

Try Tiro and convince yourself!!

## **Tiro Premium Deluxe the classic glove**
